

## List of Other Systemically Important Institutions (O-SII) based on EBA's updated list

**Description:** The European Banking Authority (EBA) updated the list of other systemically important institutions (O-SIIs) in the EU, which, together with global systemically important institutions (G-SIIs), are identified as systemically important by the relevant authorities. The list contains 178 banks which were identified as systemically important in 2023 with buffer rates ranging from 0.25% to 3%. The list published aims to increase transparency across EU by providing an overview of OSIs and helps to understand the specific features of each O-SII and to get some insight in terms of supervisory judgment, optional indicators used, buffer decisions and phase-in implementation dates.

\*\*The list is intended to only contain Other Systemically Important Institutions (O-SIIs) within the scope of Directive 2013/36 (CRD)

Country	Name of institution identified as O-SII	Final buffer rate
AT	Erste Group Bank AG	1.50%
